About LYS Energy Solutions:

LYS Energy is a Singapore-based Independent Power Producer (IPP). We develop, finance, install and operate Solar Systems for Commercial, Industrial and Public sites throughout Southeast Asia and help organizations go green smoothly without risks whilst providing more independence and predictable utility costs.

At LYS Energy, we believe that moving towards a more sustainable energy mix using Solar production systems can greatly contribute to the transition of Southeast Asia to a low-carbon future.

We also believe that supporting this move towards green, efficient, and smart distributed energy systems can make perfect economic sense and deliver rapid tangible value to our customers.
