

Junior Project Manager

Are you looking for a meaningful career that makes a difference in the world?

Then consider joining LYS Energy (LYS) team where you will do just that. We want to attract the industries' best and brightest talents to help us achieve our vision to be a vector of the energy transition by re-inventing the energy industry towards a customer-centric prosumer era, in a sustainable way for the benefits of the entire ecosystem and in all verticals we service.

We are currently seeking a Junior Project Manager to join our team in Vietnam and support the growth of the Company, playing an active role in the development, construction, and execution of our Vietnam Solar PV projects portfolio. The role is to ensure project goals of completion, performance and quality are achieved.

You will get the support and guidance from our senior project managers based in HO Chi Minh City and Singapore to complete your deliverables.

Role & Responsibilities

Project Design/Planning/ Management

- Develop **project construction planning** and workload forecasting to optimize allocation of resources and fulfill all milestones & objectives in due time
- **Review design** compliance to Vietnam Electrical and Civil & Structural standard
- Generate **activity progress reports** addressing all project issues with updated project planning
- Anticipate and analyze delays and propose corrective action plans
- **Project Budget tracking**
- Liaise with EPC and other industrial partners
- Conduct Factory Acceptance Test/inspections.

Project On Site Supervision

- Monitor and supervise EPC partner during construction phase to ensure compliance to required standards and best practices
- Investigating and resolving field problems in coordination with customers, contractors, consortium partner
- Mitigate against construction work practices that are not meeting the required standards
- Ensure Project adheres to quality, security, and process requirements
- Secure the commissioning and testing of the projects.

Performance Optimization

- Provide feedback of products defects and non-quality issues for future corrections and procurements
- Support the identification, development and **continuous improvement of work processes**, tools, and templates used to deliver technical support to our clients
- **Maintain expert knowledge of competitors' technical offering** and innovative product development (including global best practices outside Vietnam: Asia Pacific, US, Europe...)
- Screen and **recommend potential technical partners**
- Suggest innovation to increase systems performance and continually reduce costs.

Project Safety Review

- **Review Contractor's Method Statement** and 5x5 matrix Risk Assessment
- Familiar with best practice for safety in construction industry.

Job Requirements/ Qualifications

- Bachelor or Master in Electrical / Mechanical / Civil Engineering. Alternatively, Bachelor in Business Administration with Technical Sales experience
- 1 to 2 years work experience in EPC, Engineering, or construction. Freshly graduated with strong motivation to learn also accepted. Alternatively, 3-5 years of Technical Sales experience. Candidate wishing to reconvert to project management
- Experience in project management and wholistic execution function
- Computer skills: Microsoft office, Gantt charts, S-curve, Solargis, AutoCAD, PVsyst, SAP2000, ETABS, etaps, etc.
- Excellent verbal and written communication skills in English is mandatory.
- Familiar with Vietnam electrical and Civil & Structure code and standards would be a plus
- Familiar with IEC standards relevant to electrical design & installation, e.g IEC 62548, 60364-5-52, would be a plus
- Experience as Solar Power Engineer, Electrical commissioning testing procedures and familiarity with EVN procedures would be a plus

Ideal Personal Characteristics

- Excellent team player who works well across departments
- Ability to take ownership and work independently under light supervision. Resourceful and self-driven
- Ability to communicate, report and synthesis information is a must

- Capacity to multi-task under pressure, Hard and fast worker
- Adaptable, persistent, and goal-oriented

Salary and Conditions

- Salary to be discussed based on experience and skills
- Têt bonus
- Private health insurance of the Group
- Phone allowance
- Starting date: as soon as possible
- Contract duration: 1 year (including a 2 months' probation period)

About LYS Energy Solutions:

LYS ENERGY (www.lysenergy.com) is the first Singapore-based Solar Independent Power Producer that builds, owns, and operates solar photovoltaic systems in the Asia Pacific region. It offers the full range of solar services to install solar energy systems for commercial, industrial, and public sites.

LYS ENERGY is a wholly owned by LEADER ENERGY Group with Headquarter in Penang, Malaysia. LEADER ENERGY owns and operates a diverse portfolio of power generation and transmission assets in Cambodia, Vietnam, Malaysia, Singapore, and Taiwan.

LYS Energy provides Asia's trusted Renewable Energy platform offering hassle-free end-to-end clean energy solutions for businesses: from zero-capex solar energy (PPA), Renewable Energy Certificates (RECs), turnkey Engineering Procurement Construction (EPC) and Operations & Maintenance (O&M) services, to carbon emissions and energy management consulting.

Since its incorporation, LYS has deployed over 50MWp of high-performance solar PV systems, with a pipeline of over 500MWp in Singapore and across the region in Vietnam, Indonesia, Malaysia, Thailand.
